**Convenience Translation of the Review Report Originally Prepared and Issued in

**Independent Auditor's Report on Review of Unconsolidated Interim Financial
Statements**

To the Board of Directors of Alternatifbank A.Ş.

Introduction

We have reviewed the unconsolidated balance sheet of Alternatifbank A.Ş. ("the Bank") as at 30 June 2025 and the unconsolidated statement of profit or loss, unconsolidated statement of profit or loss and other comprehensive income, unconsolidated statement of changes in shareholders' equity, unconsolidated statement of cash flows for the six month period then ended, and notes, comprising a summary of significant accounting policies and other explanatory information. The Bank management is responsible for the preparation and fair presentation of these unconsolidated interim financial statements in accordance with the Banking Regulation and Supervision Agency ("BRSA") Accounting and Reporting Legislation which includes "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette No. 26333 dated 1 November 2006, and other regulations on accounting records of banks published by Banking Regulation and Supervision Board and circulars and interpretations published by BRSA and the requirements of Turkish Accounting Standard 34 "*Interim Financial Reporting*" for the matters not regulated by the aforementioned legislations (together referred as "BRSA Accounting and Financial Reporting Legislation"). Our responsibility is to express a conclusion on these unconsolidated interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements ("SRE") 2410, "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review of interim financial statements is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying unconsolidated interim financial statements do not present fairly, in all material respects, the unconsolidated financial position of Alternatifbank A.Ş. as at 30 June 2025 and its unconsolidated financial performance and its unconsolidated cash flows for the six month period then ended in accordance with the BRSA Accounting and Reporting Legislation.

Report on Other Legal and Regulatory Requirements

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information provided in the interim activity report included in section seven of the accompanying unconsolidated interim financial statements is not consistent, in all material respects, with the reviewed unconsolidated interim financial statements and explanatory notes.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE INTERIM PERIOD ENDED 30 JUNE 2025

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise stated).

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES

I. Basis of Presentation

As prescribed in the Article 37 of the Banking Act No. 5411, the Bank prepares its financial statements and underlying documents in accordance with the "Regulation on the Procedures and Principles for Accounting Practices and Retention of Documents by Banks" and other regulations, explanations and circulars on accounting and financial reporting principles announced by the Banking Regulation and Supervision Agency ("BRSA") and Turkish Accounting Standards ("TAS") published by Public Oversight Accounting and Auditing Standards Authority ("POA") except for BRSA regulations. TAS consists of Turkish Accounting Standards, Turkish Financial Reporting Standards and related appendices and interpretations.

The unconsolidated financial statements have been prepared in TL, under the historical cost basis as modified in accordance with inflation adjustments applied until 31 December 2004, except for the financial assets and liabilities carried at fair value. Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise stated.

The preparation of unconsolidated financial statements in conformity with BRSA Accounting and Reporting Legislation requires the use of certain critical accounting estimates by the Bank management to exercise its judgment on the assets and liabilities of the balance sheet and contingent issues as of the balance sheet date. These estimates are being reviewed regularly and, when necessary, suitable corrections are made and the effects of these corrections are reflected to the income statement.

In the announcement dated 23 November 2023 made by the POA, it was stated that the financial statements of companies applying TFRS for the annual reporting period ending on or after 31 December 2023 must be presented adjusted for the inflation effect within the scope of Financial Reporting in High Inflation Economies ("TAS 29"), however authorities or organizations authorized to regulate and supervise their fields are given the freedom to determine different transition dates for the implementation of inflation accounting. In this context, BRSA, with its decision dated 5 December 2024 and numbered 11021, decided that the financial statements of banks, financial leasing, factoring, financing, savings financing and asset management companies will not be subject to the inflation adjustment required within the scope of TAS 29. In this context, inflation adjustment required within the scope of TAS 29 is not implemented while preparing the financial statements as of 30 June 2025.

The accounting policies and valuation principles applied in the preparation of these financial statements and valuation principles are defined and applied in accordance with BRSA Accounting and Reporting Legislation. Those accounting policies and valuation principles are explained in Notes II to XXVIII below.

Additional paragraph for convenience translation to English:

The differences between accounting principles, as described in the preceding paragraphs and accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in the accompanying unconsolidated financial statements. Accordingly, the accompanying unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

II. Explanations on Strategy of Using Financial Instruments and Foreign Currency Transactions

A major portion of the Bank's funding has fixed interest rates; almost all TL placements consist of low-risk short-term transactions. Liquidity risk is monitored closely and the adequacies of available resources (which will be due within a certain period of fulfillment of obligations) are closely monitored. The maturity structure of placements is aimed to be in line with the maturities of resources of the country to the extent permitted by current conditions.

Risk bearing short term positions of currency, interest or price movements in money and capital markets is evaluated within the trading risk. The Bank evaluated the required economic Capital for trading risk and based on that risk limits are determined. This portfolio, being priced by the market on a daily basis and the limits are monitored on a daily basis. Risk limits are approved by Board of Directors once a year following the approval of the budget except a revision is required due to the economic conditions.

The Bank does not have any investment in foreign companies as of 30 June 2025 and 31 December 2024.

FOR THE INTERIM PERIOD ENDED 30 JUNE 2025

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise stated).

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

III. Explanations on Associates, Subsidiaries and Joint Ventures

The Bank has two subsidiaries resided in Turkey, which are Alternatif Finansal Kiralama A.Ş., Alternatif Menkul Değerler A.Ş. Non-public traded subsidiaries are Alternatif Finansal Kiralama A.Ş. and Alternatif Menkul Değerler A.Ş., they are accounted for cost value according to "Individual Financial Statements" ("TAS 27") and if they have provision for impairment, provision is deducted, after reflected to financial statements.

The Bank has not any recognize as foreign currency association and subsidiaries as of 30 June 2025 and 31 December 2024.

The Bank has not any joint ventures as of 30 June 2025 and 31 December 2024.

IV. Interest Income and Expense

Interest income and expenses are recognized in the income statement by using the "Effective interest rate method". Net book value of the non-performing loans (Gross Book Value - Expected Credit Loss) are rediscouned through effective interest rate and recognized through the gross book value of the non-performing loan.

V. Fee and Commission Income and Expense

Except for the banking services revenues are recognized as income at the time of collection, commission income related with the cash and non-cash loans are deferred and recognized as income by using with the effective interest rate method in accordance with TFRS 15 "Revenue from Contracts with Customers" standard. Depending on nature of fees and commission income derived from agreements and asset purchases for third parties are recognized as income when realized.

Fees and commission expenses paid to the other institutions are recognized as operation cost in the prepaid expense and recorded using the effective interest rate method and reflected to expense accounts in related period according to periodicity.

VI. Financial Assets

The Bank categorizes its financial assets as "Fair Value through Profit/Loss", "Fair Value Through Other Comprehensive Income" or "Measured at Amortized Cost". Such financial assets are recognized or derecognized according to TFRS 9 Financial Instruments Part 3 Issued for classification and measurement of the financial instruments published in the Official Gazette No. 29953 dated 19 January 2017 by the Public Oversight Accounting and Auditing Standards Authority. Financial assets are measured at fair value at initial recognition in the financial statements. During the initial recognition of financial assets other than "Financial Assets at Fair Value through Profit or Loss", transaction costs are added to fair value or deducted from fair value.

The Bank recognizes a financial asset into financial statements when it becomes a party to the contractual terms of a financial instrument. During the first recognition of a financial asset into the financial statements, business model determined by Bank management and the nature of contractual cash flows of the financial asset are taken into consideration. When the business model determined by the Bank's management is changed, all affected financial assets are reclassified and this reclassification is applied prospectively. In such cases, no adjustments are made to earnings, losses or interests that were previously recorded in the financial statements.

a. Financial Assets at Fair Value through Profit or Loss

Financial assets at fair value through profit/loss are financial assets other than the ones that are managed with business model that aims to hold to collect contractual cash flows or business model that aims to collect both the contractual cash flows and cash flows arising from the sale of the assets; and if the contractual terms of the financial asset do not lead to cash flows representing solely payments of principal and interest at certain date; that are either acquired for generating a profit from shortterm fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit making. Financial assets at the fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the income statement.

VI. Financial Assets (Continued)

b. Financial Assets at Fair Value through Other Comprehensive Income

A financial asset is measured at fair value through other comprehensive income when both of the following conditions are provided:

- Financial assets within a business model that aims to hold to collect contractual cash flows and aims to hold to sell,
- Financial asset with contractual terms that lead to cash flows are solely payments of principal and interest at certain dates.

Valuation of such assets is based on its fair value. "Unrealized gains and losses" arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income reflected and impairment of the asset and they are accounted under the "Accumulated other comprehensive income or expense to be reclassified through profit or loss" under shareholders' equity. In the case of disposal of securities at fair value through other comprehensive income, the value arising in the equity accounts as a result of fair value application is reflected in the income statement. However, for certain investments in equity instruments that would normally be measured at fair value through profit or loss, the Bank may irrevocably elect to recognize subsequent changes in fair value through other comprehensive income on initial recognition.

c. Financial Assets Measured at Amortized Cost

A financial asset is measured at amortized cost when both of the following conditions are provided:

- Financial assets within a business model that aims to hold to collect contractual cash flows,
- Financial asset with contractual terms that lead to cash flows are solely payments of principal and interest at certain dates.

Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at amortized cost by using "Effective Interest Rate Method". Interest income obtained from financial assets measured at amortized cost is accounted in income statement.

d. Derivative Financial Assets

The Bank uses derivative financial instruments to hedge its foreign currency and interest rate risk.

The major derivative instruments utilized by the Bank are foreign currency swaps, interest rate swaps, currency forwards, currency futures and currency options.

Derivatives are initially recorded with their fair values and related transaction costs as of the contract date are recorded on gain or loss. The following periods of initial reporting, they are measured with their fair values. The result of this assessment, offsetting debit and credits stemming from each contract debit and credits are reflected to the financial statements as a contract-based single asset and liability. The recognition method of profit/loss is based on whether the related derivative is hedged or not, and the content of the hedged instrument.

The Bank notifies in written the relationship between hedging instrument and related account, risk management aims of hedge and strategies and the methods using to measure of the hedge effectiveness. The Bank evaluates the method of hedge whether to be effective on the expected changes in fair values in this process or not or each result of hedge effectiveness whether to be between the range of 80% and 125%.

Changes in fair values of derivative transactions determined as hedge for fair value are recorded in profit or loss together with changes in hedging asset or liability.

VI. Financial Assets (Continued)

d. Derivative Financial Assets (Continued)

The difference in fair values of derivative transactions used for fair value hedge is presented in the used for fair value hedge is presented in the "Trading Gains/Losses on derivative financial instruments" account. In the balance sheet, the change in fair value of hedge asset or liability during the hedge accounting to be effective is shown with the related asset or liability. In case of inferring hedge accounting, corrections made to the value of hedge account using straight-line amortization method within the days to maturity are reflected to "Trading gains/losses on derivative financial instruments" account in income statement.

Derivative financial instruments of the Bank are classified under "TFRS 9 Financial Instruments" ("TFRS 9"), "Derivative Financial Assets Designated at Fair Value through Profit or Loss" or "Derivative Financial Assets Designated at Fair Value through Other Comprehensive Income". In accounting policy choice, TFRS 9 provides the option of postponing the acceptance of TFRS 9 hedge accounting and continuing with TAS 39 "Hedge accounting". In this context, the Bank continued to apply TAS 39 "Hedge accounting".

The notional amounts of derivative transactions are recorded in off-balance sheet accounts based on their contractual amounts. "Financial instruments at fair value through profit or loss" are measured at fair value. If the fair value of derivative financial instruments is positive, it is disclosed under the main account "Financial assets at fair value through profit or loss" in "Derivative financial assets held for trading" and if the fair value difference is negative, it is disclosed under "Derivative financial liabilities held for trading". Fair value changes are recorded under "Derivative Financial Transactions Gains/(Losses)" in the income statement. The fair values of the derivative financial instruments are calculated using quoted market prices or by using discounted cash flow models.

e. Loans

Loans are financial assets which are created by providing money, goods or services to the debtor. Loans are recognized at acquisition cost which is reflecting the fair value after that measured at amortized cost using the effective interest rate method. Any fees and other similar charges paid for assets received as collateral are not considered as part of the transaction cost and reflected in the expense accounts.

Cash loans in personal and corporate loans, according to the Uniform Chart of Accounts ("UCA") and Prospectus are recognized in accordance with their original balances in the account specified.

The foreign exchange indexed commercial and individual loans are being monitored by the exchange rate of the opening date over Turkish Lira in the TL accounts. Repayments are calculated at the exchange rate at the date of payment, the resulting exchange differences are recognized in the income and expense account.

VII. Impairment of Financial Assets

The Bank allocates impairment for expected loss on financial assets measured at amortized cost and measured at fair value through other comprehensive income.

As of 1 January 2018, the Bank recognizes provisions for impairment in accordance with TFRS 9 requirements according to the "Regulation on the Procedures and Principles for Classification of Loans by Banks and Provisions to be set aside" published in the Official Gazette dated 22 June 2016 numbered 29750. In this framework, as of 31 December 2017, method of provisions for impairment as set out in accordance with the related legislation of BRSA is changed by applying the expected credit loss model under TFRS 9.

VII. Impairment of Financial Assets (Continued)

The Bank estimates the expected credit losses for a financial lease based on the probabilities determined by taking into account the probable outcomes and estimates the fair value of the money and the estimates of past events, current conditions and future economic conditions at reasonable rates, and reflects supportable information during the reporting period.

The Bank calculates the expected credit loss individually or by grouping the financial assets that bear the common credit risk characteristics according to the risk level determined by the bank.

Within the scope of internal policies, the Bank, evaluates the calculation of credit losses in accordance with TFRS 9, as an individual assessment based on expert opinion. In this context, the Bank takes into account the weight of the estimating the probability of scenario of the occurrence or failure of the related loan losses and reduced expected cash flows to the reporting date with effective interest rate.

The Bank uses three basic parameters in the calculation of expected credit loss as default rate, loss in default and default amount. The calculation is also based on these scenarios, time value of money, the historical observed data and the forecasting of the macroeconomic situation.

In the calculation of expected credit loss, the Bank includes the prospective macroeconomic information in to the credit risk parameters. In this context, economic models based on the relationship of credit risk parameters with macroeconomic variables are established based on multi-scenario, and the models mainly take into account the basic macroeconomic variables such as Gross Domestic Product (GDP) and Unemployment Rates. The efficiency and adequacy of the models used in the calculation of credit losses are reviewed at regular intervals. In the light of the said data, the Bank has been revised the macroeconomic indicators for the future in the expected credit loss calculation.

Financial assets included in TFRS 9, is divided into three stages according to the change in loan quality after initial recognition and the expected credit loss is calculated according to the stage:

- Stage 1: For the financial assets at initial recognition or that do not have a significant increase in credit risk since initial recognition. Impairment for credit risk is recorded in the amount of 12-month expected credit losses.
- Stage 2: In the event of a significant increase in credit risk since initial recognition, the financial asset is transferred to Stage 2. For these assets, lifetime expected credit losses are recognized.
- Stage 3: Stage 3 includes financial assets that have objective evidence of impairment at the reporting date. For these assets, lifetime expected credit losses are recognized.

➤ Definition of Default:

Default means, when the borrower's payment obligations which against to the Bank, delays more than 90 days from the date of payment in part or in full, or he is not pay.

➤ Considered as a significant increase in credit risk:

- Overdue receivables of more than 30 days
- Receivables followed in close monitoring portfolio
- Restructured receivables due to payment difficulties
- Receivables from non-problematic consumer loans from individual customers with problematic consumer loans
- Receivables exceeding the established thresholds for the differences between the default probabilities measured at the time of the financial statements and the default probabilities observed at the reporting date

VIII. Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Bank has a legally enforceable right to offset the recognized amounts and to collect/pay related financial assets and liabilities on a net basis, or there is an intent on to realize the asset and settle the liability simultaneously. Otherwise, any related financial assets and liabilities are not offset.

IX. Sales and Repurchase Agreements and Securities Lending Transactions

Funds obtained by the Bank from repurchase agreements ("repo") are accounted under "Money Market Balances" in liabilities.

The Bank's repurchase agreements are composed short-term government bonds and treasury bills. Financial assets subject to repurchase agreements, parallel to the classification of financial instruments, the fair value recognition in profit or loss, are classified as available for sale or held to maturity financial assets. Repo subjected financial assets' income recognized in interest income, while expenses paid under repurchase agreements are recognized in interest expenses.

Funds given against securities purchased under agreements to resell ("Reverse Repo") are accounted under "Money Market Placements" on the balance sheet.

X. Assets Held for Sale and Discontinued Operations

In accordance with TFRS 5 standard ("Non-current Assets Held for Sale and Discontinued Operations"), a tangible asset (or a group of assets to be disposed) classified as "asset held for resale" is measured at lower of carrying value and fair value less costs to sell. An asset (or a group of assets to be disposed) is regarded as "asset held for resale" only when the sale is highly probable and the asset (or a group of assets to be disposed) is available for immediate sale in its present condition. For a highly probable sale, there must be a valid plan prepared by the management for the sale of asset including identification of possible buyers and completion of sale process. Furthermore, the asset should be actively in the market at a price consistent with its fair value.

The Bank classified assets that were acquired due to non-performing receivables, as assets held for sale.

A discontinued operation is a part of the Bank's business classified as sold or held-for-sale. The operating results of the discontinued operations are disclosed separately in the income statement.

As of 30 June 2025 and 31 December 2024 The Bank has no discontinued operations.

XI. Goodwill and Other Intangible Assets

There is no goodwill in unconsolidated financial statements as of balance sheet date.

The intangible assets which are purchased before 1 January 2005 have been restated for the effects of inflation and the intangible assets after this date are presented with their purchase cost, accumulated depreciation and amortization and impairment. According to the regular amortization method, long term assets depreciate regarding to their useful lives. The amortization method and the period are reviewed in each year-end. The intangible assets are mainly consisted of software programs and rights and according to the straight line method of depreciation, they amortize in between 3 to 15 years.

XII. Property and Equipment

Property and equipment is measured at its cost when initially recognized and any directly attributable costs of setting the asset in working order for its intended use are included in the initial measurement. Subsequently, property and equipment are carried at cost less accumulated depreciation and provision for impairment, if any.

Properties and equipments are being depreciated by applying the straight-line method, in accordance with the Tax Procedure Law which estimates the useful lives.

The depreciation charge for items remaining in property and equipment for less than an accounting period at the balance sheet date is calculated in proportion to the period the item remained in property and equipment.

If properties and equipments' value, adjusted for inflation (until 31 December 2004) is higher than the current value, exceeding amount is being allocated for impairment and determined amounts are reflected in the financial statements. Gain or loss resulting from disposals of the property and equipment is reflected to the income statement as the difference between the net proceeds and net book value. Expenditures for the repair and renewal of property and equipment are recognised as expense. There are no pledges, mortgages or other restrictions on the properties and equipments.

Tangible assets within the property's net book value by comparing the fair value determined as of the last year by a licensed real estate appraisal companies, In case of an indication of the presence related to the fair value impairment, the recoverable amount of the asset "Turkey Related to Impairment Accounting Standards" (TAS 36) are estimated within the framework and the recoverable amount is below the asset's book value, a provision for impairment is separated and formed is recognized in "Other Operating Expenses" in the relevant period.

Gains or losses on disposals of property, plant and equipment are recognized in the statement of profit or loss as the difference between the net book value and the carrying amount of the property, plant and equipment.

The Bank has started to account properties under the tangible assets with their revalued amount instead of cost values in accordance with "TAS 16 Plant and Equipment" on 31 December 2018. As of 30 June 2025, the revaluation difference arising from the valuations made by the appraisal firms authorized by Capital Markets Board ("CMB") and BRSA is accounted in Property and Equipment Revaluation Increase/Decrease line under the Shareholders' Equity.

XIII. Leasing Transactions

The Bank assesses whether the contract has the quality of a lease or whether the lease includes the transaction at the beginning of a contract. In case the contract is transferred for a certain period of time to control the use of the asset defined for a price, it is either leased or includes a lease. The Bank reflects the existence of a right of use and a lease liability to the financial statements at the effective date of the lease.

Right of use assets

The right to use asset is first recognized by cost method and includes:

- The initial measurement amount of the lease obligation,
- The amount obtained by deducting all the rental incentives received from all lease payments made at or before the beginning of the lease,
- All initial direct costs incurred by the Bank

When the Bank applying the cost method, the existence of the right to use:

- Accumulated depreciation and accumulated impairment losses are deducted and
- Measures the restatement of the lease obligation at the restated cost.

The Bank applies depreciation obligations in TAS 16 Property Tangible Assets while depreciating its right of use asset.

The lease obligations:

At the effective date of the lease, the Bank measures its leasing liability at the present value of the lease payments not paid at that time. Lease payments are discounted using the Bank's average borrowing interest rates, if that rate can be easily determined. If this rate can not be easily determined, the Bank uses the Bank's alternative borrowing interest rate.

The lease payments included in the measurement of the lease liability consist of the payments to be made for the right of use during the lease term of the underlying asset and the unpaid payments at the effective date of the lease. After the effective date of the lease, the Bank measures the leasing liability as follows:

- Increase the book value to reflect the interest on the lease obligation
- Reduces the book value to reflect the lease payments made and
- The book value is measured to reflect reassessments and restructuring, or reflect to fixed lease payments as of revised nature.

The interest on the lease liability for each period in the lease period is the amount calculated by applying a fixed periodic interest rate to the remaining balance of the lease liability. "TFRS 16 Leasing" Standard was promulgated in Official Gazette No. 29826, dated 16 April 2018 to be applied in the accounting period starting on 31 December 2018. The Bank applied TFRS 16 "Leasing" standard, which replaced TAS 17 "Leasing", as of 1 January 2019, the date of first implementation.

As of 30 June 2025, net right of use assets are amounting to TL 36,367 and net lease liabilities are amounting to TL 42,313, respectively. (31 December 2024: net right of use assets TL 33,258, net lease liabilities TL 8,778).

XIV. Provisions, Contingent Commitments and Contingent Assets

Provisions and contingent liabilities except for the specific and general provisions recognized for loans and other receivables are accounted in accordance with the "Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets" (TAS 37).

Provisions are recognized when the Bank has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Provisions are determined by using the Bank Management's best expectation of expenses in fulfilling the obligation, and discounted to present value if material. When the amount of the obligation cannot be estimated and there is no possibility of an outflow of resources from the Bank, it is considered that a "Contingent" liability exists and it is disclosed in the related notes to the financial statements.

XV. Obligations Related to Employee Rights

Obligations related to employee termination and vacation rights are accounted in accordance with "Turkish Accounting Standard for Employee Rights" ("TAS 19"). Under the Turkish Labor Law, the Bank is required to pay a specific amount to the employees who have retired or whose employment is terminated other than for the reasons specified in the Turkish Labor Law. The reserve for employment termination benefits represents the present value of the estimated total reserve for the future probable obligation arising from this liability. Actuarial gains and losses are accounted for under equity.

XVI. Taxation

a. Corporate tax

Article 32 of the Corporate Tax Law No. 5520, which regulates the corporate tax rate is amended with "Law on the Amendment of Additional Motor Vehicles Tax for Compensation of Economic Losses Caused by the Earthquakes Occurring on 6/2/2023 and Amendments to Some Laws and the Decree Law No. 375", which includes the regulation on increase in corporate tax rate from 20% to 25% for the institutions other than banks and financial institutions and from 25% to 30% for banks and financial institutions, entered into force after being published in the Official Gazette dated 15 July 2023 and numbered 32249. This rate implemented tax base by adding non-deductable expenses and deducting other exemptions to business profit according to tax requirements. If the profit is not distributed, no other tax are paid.

With the "Law on Giving Tax Procedure Law and Corporate Tax Law", which was accepted on the agenda of the Turkish Grand National Assembly on 20 January 2022, the application of discount accounting was started from the record on 31 December 2023.

Dividends paid to non-resident corporations, which have a place of business in Turkey or to resident corporations are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 10%. An increase in capital via issuing bonus shares is not considered as profit distribution and thus does not incur withholding tax.

Corporations are required to pay advance corporate tax quarterly at a current rate on their corporate income. Advance tax is declared by the 15th and paid by the 17th day of the second month following each calendar quarter end. Advance tax paid by corporations which is for the current period is credited against the annual corporation tax calculated on their annual corporate income in the following year. Despite the offset, if there is temporary prepaid tax remaining, this balance can be refunded or used to offset any other financial liabilities to the government.

As stipulated in the Corporate Tax Law, 50% of gains derived from the sale of equity investments and immovable properties held for at least two years are tax exempt, if such gains are added to paid-in capital or held in a special account under shareholder's equity for five years. With the Law, No. 7456 promulgated in the Official Gazette, dated 15 July 2023, the exemption has been abolished for the properties to be acquired after the publication date of the decision, and if the properties acquired before this date are sold after the effective date of the decision, 25% of the sales gain will be exempt from corporate tax. Under the Turkish Corporate Tax Law, losses can be carried forward to offset against future taxable income for up to five years. Losses cannot be carried back to offset profits from previous periods.

There is no practice of reconciling with the tax authority regarding taxes to be paid in Turkey. Tax returns are required to be filled and delivered to the related tax office until the evening of the last day of the fourth month following the balance sheet date. The accrued tax is paid until the end of the same month. Tax returns are open for five years from the beginning of the year following the date of filing during which period the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

XVI. Taxation (Continued)

a. Corporate tax (Continued)

The corporate tax effects related to transactions accounted for directly in equity are also shown in equity. As of 31 December 2021, the conditions sought for inflation adjustment in the calculation of corporate tax have been fulfilled, within the framework of the repeated provision of Article 298 of the Tax Procedure Law. These conditions are both the exceed in the increase of Producer Price Index in the last 3 accounting periods including current period by 100% and the exceed in the increase in the current period by 10%. However, temporary article 33 has been added on the Tax Procedure Law No. 213 with the regulation made with the Tax Procedure Law and the Law on Change in Corporate Tax Law No. 7352 published in the Official Gazette No. 31734 dated 29 January 2022, the financial statements for the 2021 and 2022 accounting periods (as of the accounting periods ending in 2022 and 2023 for those who are assigned a special accounting period), including the provisional tax periods, are not subject to inflation adjustment, and for the 2023 accounting period; are not subject to inflation adjustment as of the provisional tax periods, and the financial statements dated 31 December 2023 will be subject to inflation adjustment regardless of whether the inflation adjustment conditions are met or not. Profit/loss difference arising from inflation adjustment in the financial statements are to be shown in previous years' profit/loss accounts and does not affect the corporate tax base.

According to Article 17 of the Law No. 7491 on Amendments to Certain Laws and Decree Laws published in the Official Gazette No. 32413 dated 28 December 2023, it has become law that profit/loss differences arising from the inflation adjustment to be made in the 2024 and 2025 accounting periods, including the provisional tax periods, do not be taken into account in determining the income of banks, companies within the scope of the Financial Leasing, Factoring, Financing and Savings Financing Companies Law No. 6361 dated 21 November 2012, payment and electronic money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies and pension companies. Within the scope of this paragraph, the President is granted the authority to extend the periods determined herein, including interim tax periods, for a period equal to one accounting period.

With the Communiqué Amending the General Communiqué on Tax Procedure Law (line no. 547) published in the Official Gazette No. 32073 on 14 January 2023, the procedures and principles of the articles allowing the revaluation of real estates and depreciation units have been redrawn. Accordingly, economic assets subject to depreciation in the Bank's balance sheet are subject to revaluation until 30 September 2023, provided that they meet the conditions in the Tax Procedure Law's Provisional Article 32 and Reiterated Article 298/ç. Due to the inflation adjustment of the financial statements as of 31 December 2023, immovable properties and depreciable economic assets are not subject to revaluation as of 31 December 2023. Due to the realization of inflation accounting conditions, revaluation was not made after 30 September 2023, and inflation valuation was started. As a result of these transactions, the Tax Procedure Law depreciation to be subject to corporate tax is calculated over the current inflation-adjusted amounts.

b. Deferred taxes

The Bank calculates and accounts for deferred income taxes for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in these financial statements in accordance with "Turkish Accounting Standard for Income Taxes" ("TAS 12") and the related decrees of the BRSA concerning income taxes. In the deferred tax calculation, the enacted tax rate, in accordance with the tax legislation, is used as of the balance sheet date.

Article 32 of the Corporate Tax Law No. 5520, which regulates the corporate tax rate is amended with "Law on the Amendment of Additional Motor Vehicles Tax for Compensation of Economic Losses Caused by the Earthquakes Occurring on 6/2/2023 and Amendments to Some Laws and the Decree Law No. 375", which includes the regulation on increase in corporate tax rate from 20% to 25% for the institutions other than banks and financial institutions and from 25% to 30% for banks and financial institutions, entered into force after being published in the Official Gazette dated 15 July 2023 and numbered 32249. With the same article (article 21) of the aforementioned law, it is ensured that the corporate tax rate, which was applied with a reduction by 1 percentage point to the earnings of the exporting companies exclusively from exports, is applied with a reduction by 5 percentage point in order to promote export.

This amendment will be effective for the earnings of the corporations in 2023 and for the following tax periods, starting from the declarations that must be submitted after 1 October 2023. It will be effective in the tax calculation of the profits of the institutions subject to the special accounting period, obtained in the special accounting period starting in the 2023 calendar year and in the following taxation periods.

As of 30 June 2025, 30% deferred tax has been calculated for assets and liabilities by the Bank.

Deferred tax liabilities are recognized for all resulting temporary differences whereas deferred tax assets resulting from temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deferred tax assets can be utilized.

The calculated deferred tax asset and deferred tax liability are presented as net in these financial statements.

c. Transfer pricing

Transfer pricing is regulated through article 13 of Corporate Tax Law titled "Transfer Pricing through camouflage of earnings". Detailed information for the practice regarding the subject is found in the "General Communiqué on Disguised Profit Distribution via Transfer Pricing". According to the aforementioned regulations, in the case of making purchase or sales of goods or services with relevant persons/corporations at a price that is determined against "arm's length principle", the gain is considered to be distributed implicitly through transfer pricing and such distribution of gains is not subject to deductions in means of corporate tax.

XVII. Additional Explanations on Borrowings

Debt instruments with different characteristics such as syndicated borrowings and post-financing obtained from foreign financial institutions, marketable securities issued in domestic and foreign markets and money market borrowings are major funding source of the Bank. Mentioned borrowings are carried initially at acquisition cost and subsequently recognized at the discounted value calculated using by "Effective interest rate method".

XVIII. Explanations on Share Certificates and Issuance of Share Certificates

At capital increases, the Bank accounts the difference between the issued value and nominal value as "share issue premium under shareholders" in equity, in the case where the issued value is higher than the nominal value. There is no decision of Bank for dividend distribution after the balance sheet date.

XIX. Explanations on Avalized Drafts and Acceptances

Guaranteed bills and acceptances shown as Bank's liabilities against assets are included in the "Off-balance sheet commitments".

XX. Explanations on Government Incentives

As of 30 June 2025 and 31 December 2024, the Bank does not have any government incentives.

XXI. Profit Reserves and Profit Distribution

Retained earnings as per the statutory financial statements other than legal reserves are available for distribution, subject to the legal reserve requirement referred to below. Under the Turkish Commercial Code ("TCC") the legal reserves are composed of first and second reserves. The TCC requires first reserves to be 5% of the profit until the total reserve is equal to 20% of issued and fully paid-in share capital. Second reserves are required to be 10% of all cash profit distributions that are in excess of 5% of the issued and fully paid-in share capital. However holding companies are exempt from this application. According to the Turkish Commercial Code, legal reserves can only be used to compensate accumulated losses and cannot be used for other purposes unless they exceed 50% of paid-in capital.

In accordance with the decision of the Ordinary General Assembly dated 27 March 2025, The Bank has decided to allocate 5% of the legal reserve over the net distributable profit, the remaining amount will not be distributed and will be allocated as Legal Reserves.

XXII. Earnings Per Share

Earnings per share disclosed in the income statement are calculated by dividing net profit/(loss) for the year to the weighted average number of shares outstanding during the period concerned.

	30 June 2025	30 June 2024
Profit/(Loss) Attributable to Shareholders	960,271	709,666
Weighted Average Number of Issued Ordinary Shares (Thousand)	2,213,740	2,213,740
Earnings/(Losses) Per Share (Disclosed in full TL)	0.4338	0.3206

In Turkey, companies can increase their share capital by making a pro-rata distribution of shares "bonus shares" to existing shareholders from retained earnings. For the purpose of earnings per share computations, the weighted average number of shares outstanding during the year has been adjusted in respect of bonus shares issued without a corresponding change in resources by giving them a retroactive effect for the year in which they were issued and for each earlier period.

The Bank has not issued any bonus shares in 2025. (31 December 2024: None).

XXIII. Related Parties

For the purpose of these financial statements, shareholders, key management personnel and board members together with their families and companies controlled by/affiliated with them, and associated companies are considered and referred to as related parties in accordance with "Turkish Accounting Standard for Related Parties" ("TAS 24").

The transactions with related parties are disclosed in detail in Note VII. of Section Five.

XXIV. Cash And Cash Equivalents

For the purposes of the cash flow statement, "Cash" includes cash, effectives, cash in transit, purchased cheques and demand deposits including balances with the Central Bank; and "Cash equivalents" include interbank money market placements and time deposits at banks with original maturity periods of less than three months.

The Internal Assessment Process of Internal Capital Adequacy Regarding the Current and Future Operations

The ultimate objective of the internal assessment process of capital requirement is to sustain considering assess the capital adequacy of the Bank in line with the risk profile and risk appetite by considering the Bank's strategies, credit growth prospects, structure of assets and liabilities, future funding sources and liquidity, and dividend distribution policy and possible fluctuations in the capital due to the economic cycle.

Within this scope, legal and internal capital requirements are assessed prospectively, along with the annual targets of the Bank, in parallel to the preparation of 5 year strategic plans. In the process of assessing internal capital requirements, the credit risk, market risk, and operational risks, in the first pillar, and the interest rate risk resulting from the Banking accounts, concentration risk, business risk, reputation risk, model risk, and exchange risk are also included.

The risks that the Bank can encounter due to its operations are being evaluated in budget works and the possible capital requirements according to The Bank's goal and strategies are evaluated.

The evaluation of legal and internal capital ratio requirements considers normal conditions as well as the stress conditions. The stress scenarios are designed after estimation of post macroeconomic variables, the effects of these variables on the loan costs and market risk factors (exchange rate, interest rates etc.). The effects of stress scenarios on capital, income, risk weighted assets and capital requirement are calculated.

Internal assessment of internal capital requirement is considered by the Bank as an improving process and further upgrades to this method is planned for the future.

II. Explanations on Credit Risk

Not prepared in compliance with the Article 25 of the communiqué "Financial Statements and Related Disclosures and Footnotes to be announced to Public by Banks".

III. Explanations on Currency Risk

The difference between the Bank's foreign currency denominated and foreign currency indexed on and off-balance sheet assets and liabilities is defined as the "Net Foreign Currency Position" and it is the basis of currency risk. Another important dimension of the currency risk is the change in the exchange rates of different foreign currencies in "Net Foreign Currency Position" (cross currency risk).

The Bank keeps the amount at currency risk within the legal limits and monitors the foreign currency positions daily/momentarily. Even though the Bank's determined foreign currency limit is minimal compared to the legal limit, the positions throughout the year did not exceed the limits. Term option contracts such as swap and forward are used for hedging the currency risk. Stress tests are performed to mitigate the fluctuations of the exchange rates.

IV. Explanations on Interest Rate Risk

Assets, liabilities and off-balance sheet items' interest rate sensitivity are measured.

The expected impact on the financial position and on the cash flow of the bank due to the fluctuations in the market interest rates are being followed within the framework of Asset-Liability management principles and also interest rate risk limits restricted on balance sheet by the Board of Directors. These limits also impose restriction to indirect profit centers can carry on maturity mismatches.

The Bank has not encountered to any significant interest rate risk in last period.

Average interest rates applied to monetary financial instruments reflect market rates.

V. Explanation on Stock Position Risk

None.

VI. Explanations on Liquidity Risk Management and Liquidity Coverage Ratio

There is a liquidity limit approved and monitored on a weekly basis by the Bank Risk Committee. This limit is used by the Assets-Liability Management Committee for deciding to funding sources composition and pricing policy.

Maturity and interest rate mismatches impact on profitability and capital is measured using scenario analysis.

The Bank's most important source of liquidity is deposits denominated in TL and foreign exchange deposit accounts. In addition, there are also borrowing opportunities available from Borsa İstanbul repo market, TakasBank and Interbank market.

In accordance with the "Regulation on calculation of Bank's liquidity coverage ratio", published in Official Gazette no. 28948, dated 21 March 2014, as of 2019 the deposit banks are subject to set 100% and 80% liquidity ratios for Total and Foreign Currency accordingly. The liquidity ratio is calculated by dividing the high quality liquid assets by net cash outflows.

1.a. Information on liquidity risk management regarding how to provide communication with the Board of Directors and lines of business for risk capacity of the Bank, liquidity risk, responsibility and structure of management, reporting of Bank's liquidity risk, liquidity risk strategy, policies and practices.

Liquidity risk management aims to take necessary measures in a timely manner and correct way with respect to potential liquidity shortage caused by cash flow mismatches of Bank's balance sheet structure and/or market conditions. It is on ground of the meeting the liquidity needs cash and disposable borrowing resources at specified level and time of held deposits and other liabilities creating liquidity. Bank monitors liquidity position both in terms of foreign currency and total liquidity basis.

According to the liquidity risk management about the liquidity position, necessary guidance to the line of businesses and pricing are performed by the Asset and Liability Management Department by taking into account the cash flow of the Bank with maturities. Liquidity risk informations are reported regularly to the such Asset and Liability Committee and Management Risk Committees. The liquidity risk parameters determined within the frame of liquidity risk parameters are monitored and reported to the business units by Risk Management consistently. The actions need to be taken in conditions such as convergence and excess of limits are decided by Asset-Liability Committee.

1.b. Information on the centralization degree of liquidity management and funding strategy and the operation between the Bank and the Bank's shareholders:

The responsibility of liquidity risk management in accordance with the risk appetite determined by the Board of Directors belongs to the Treasury Asset-Liability Management Department. Risk Management Department is responsible for determining the level of bank-wide liquidity risk and its measurement, monitoring and reporting. Liquidity management and funding strategies of Bank and its shareholders are determined by Bank's Asset and Liability Management Committees and monitored by the Treasury Department.

1.c. Information on the Bank's funding strategy including policies on diversity of fund terms and resources

For the Bank's effective, correct and sustainable liquidity risk management, it is provided to be followed by the relevant committees with the approval of Liquidity Management Policy Board. The Bank's core funding source has been targeted as a deposit. Non-deposit funding sources are used to provide a variety of core sources and maturities. These resources are mainly syndicated loans, subordinated loans and bond issuances. Despite term of deposits are determined by market conditions and generally on short term basis, it is aimed to collect the deposits of customers who have high stickiness to the Bank. Non-deposit sources also preferred because they are more long-term resources.

VI. Explanations on Liquidity Risk Management and Liquidity Coverage Ratio (Continued)

1.d. Information on liquidity management on the basis of currencies constitute the minimum five percentage of the Bank's total liabilities

Turkish Lira, US Dollars and Euros are the currencies that constitute the minimum five percentage of the Bank's liabilities. It is intended to have effective foreign currency and liquidity risk management analyzing these currencies on foreign exchange and total liquidity management basis. Liquidity gap analysis are measured and managed with the same way. Deposits and other long term sources should be preferred, performing liquidity management on currency basis, in order to avoid the increase of market risk fluctuations on foreign currency positions.

1.e. Information on current liquidity risk mitigation techniques

Liquid assets as defined under Basel III are held with the intention of liquidity risk management managing the Bank's liquidity risk. Market liquidity and maturity of liquid assets are considered as risk reduction for liquidity management. In this context, the range of liquid assets is important in the management of liquidity risk. Potential risks are minimized by avoiding concentration of liquid assets during the potential liquidity needs and the Bank's ability to fulfill its obligations.

1.f. Information on the use of stress testing

Within legal framework stress tests on the basis of the liquidity risk are performed at the beginning of the each year. The test results are presented with the details of the stress test and ICAAP report annually. The Board of Directors approve the stress test results and they are shared with the BRSA during the process. In addition to these stress tests, cash flow and liquidity position analyzes are maintained according to the Bank's internal needs.

In addition, the liquidity risk stress tests are conducted regularly on a monthly basis and reported to the senior management together with the results.

1.g. General information about the emergency and contingency liquidity plan

Information on emergency and contingency liquidity plan is detailed in the Bank "Emergency Funding Plan Policy". Definitions regarding the liquidity crisis and actions that the Bank may take against a liquidity crisis that may occur in the market are implemented the action plan outlined. The Bank's special liquidity crisis levels set out in alarm conditions and the parameters to be monitored as an indicator are detailed. Liquidity Crisis Committee members and the Committee's duties and responsibilities are determined for the Bank's stress scenarios specific to the market and the Bank.

INFORMATION ON THE FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK (Continued)

VI. Explanations on Liquidity Risk Management and Liquidity Coverage Ratio (Continued)

3. Banks explanations as a minimum regarding the liquidity ratio:

3.a Important factors affected by the results of Liquidity Coverage Ratio and the change of the items taken into account Üin the ratio calculation over time

Despite all components have significant role, bond and reverse repurchase amounts cash outflows/unsecured debts of due to banks line, cash outflows/irrevocable commitments or revocable contingent commitments of off balance sheet liabilities, cash inflows/unsecured receivables of due from financial institutions are high volatile assets. Related items have an effective role on variability of ratio.

3.b Explanations on the components of high-quality liquid assets

High-quality assets is generated by cash balances and Central Bank and issued debt securities by those with 0% risk weightings of credit quality level risk. The changes in the reverse repo balance at the period effects high-quality asset stock value.

3.c Funding source components and the intensity of them in all funds

Basically deposits, loans and subordinated loans as unsecured debt items have the most significant portion in Bank's funding balances. As of 30 June 2025, the proportion of total liabilities to all deposits of the bank is 44% and borrowings constitutes 24% portion whereas subordinate debt is 8%. Secured borrowings such as repo transactions has lower portion (13%).

3.d Information about the outflows arising from derivative transactions and the possible completing collateral transactions

Cash outflows arising from derivative product balances are occurred when the derivative products liabilities are higher than the receivables. Net cash outflows increases when derivative liabilities exceed cash inflows originating from derivative instruments. As of 30 June 2025, derivative liabilities are amounting to TL 392,583 (31 December 2024: 153,000). In addition, cash outflow balances are reported with calculation against the change of derivatives fair value. This calculation is performed by checking the output margin within last 24 months of the counterparty balance. As of the reporting date, net margin balances for the past 24 months are calculated in 30-day periods and the maximum value calculated in the cash outflow direction is considered as cash outflow. In this context, according to calculations as of 30 June 2025, the liability balance is computed as TL 559,382 in case of a change in fair value of derivatives products (31 December 2024: TL 372,770).

3.e Counterparty and fund resources on the basis of products and concentration limits on collaterals

As of 30 June 2025, 65% of the Bank's time deposit cap arised from retail banking. The remaining time deposits are constituted from legal entities. Another significant funding resource of borrowings generated from foreign banks (99%).

3.f The liquidity risk for the potential funding needs for the bank itself, the branches in foreign countries and its consolidated partnerships with considering the operational and legal factors inhibiting the liquidity transfer

In the current position of the Bank and its consolidated subsidiaries, there are no such risks drawing attention.

3.g The information about the other cash inflows and outflows located in the liquidity leverage ratio calculation but not located in the second paragraph of disclosure template and considered as related with liquidity profile

In this context, there is no excluded cash inflow and outflow in statements on the current situation.

VII. Explanations on Leverage Ratio

Explanations about the aspects that cause the difference between the leverage ratios of current and prior years

The Bank's unconsolidated leverage ratio is 10.41% and calculated in compliance with "Regulation on Measurement and Evaluation of Leverage Levels of Banks" (31 December 2024: 13.13%). Increase in the leverage ratio is mainly due to the decrease in total risk. Regulation has been arrived at a decision of the minimum leverage ratio of 3%.

ALTERNATİFBANK A.Ş.**NOTES TO THE UNCONSOLIDATED****FINANCIAL STATEMENTS FOR THE INTERIM PERIOD ENDED 30 JUNE 2025***(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise stated).***INFORMATION ON THE FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK (Continued)****XI. Explanation on Hedge Accounting**

At the beginning of the association and throughout the ongoing process, the Bank evaluates whether the hedging method is effective on the changes in the expected fair values of the relevant instruments in the period in which the method is applied, or whether the effectiveness of each hedge on the actual results is between 80% and 125%.

Changes in fair values of derivative transactions determined as hedge for fair value are recorded in profit or loss together with changes in hedging asset or liability. The difference in current values of derivative transactions fair value hedge is shown in "Trading Gains/Losses on derivative financial instruments" account. In the balance sheet, change in fair value of hedge asset or liability during the hedge accounting to be effective is shown with the related asset or liability. If the underlying hedge does not conform to the hedge accounting requirements, according to the adjustments made to the carrying value (amortised cost) of the hedged item, for which the risk is hedged by a portfolio hedge, are amortized with the straight line method within the time to maturity and recognized under the "Trading gains/losses on derivative financial instruments" account.

As of 30 June 2025, the Bank has no derivative transactions determined as fair value hedging.

The Bank applies cash flow hedge accounting using interest rate swaps to hedge its TL and FC deposits with short term cyclical basis. The Bank applies effectiveness tests for cash flow hedge accounting at each balance sheet date, the active parts are accounted under equity in the financial statements as "Accumulated Other Comprehensive Income or Expenses to be Reclassified to Profit or Loss" as defined in TAS 39, and the amount related to the ineffective part is accounted for associated with the income statement. Derivative financial instruments which used as hedging instruments in Cash Flow Hedge accounting are swap interest transactions. Those derivative financial instruments are summarized in the following table:

	30 June 2025			31 December 2024		
	Principal Amount (*)	Asset	Liability	Principal Amount (*)	Asset	Liability
Derivative financial instruments						
Interest rate swaps	4,500,000	32,056	36,769	1,300,000	6,764	1,751
Total	4,500,000	32,056	36,769	1,300,000	6,764	1,751

(*) The sum of purchase and sale legs of the transactions.

In cash flow hedge accounting, when the hedging instrument expires, is executed or sold and when the hedge relationship becomes ineffective or is discontinued as a result of the hedge relationship being revoked; the hedging gains and losses that were previously recognized under equity are transferred to profit or loss when the cash flows of the hedged items are realized.

ALTERNATİFBANK A.Ş.**NOTES TO THE UNCONSOLIDATED****FINANCIAL STATEMENTS FOR THE INTERIM PERIOD ENDED 30 JUNE 2025***(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise stated).***EXPLANATIONS AND NOTES ON THE UNCONSOLIDATED FINANCIAL STATEMENTS (Continued)****II. Explanations and Notes on Liabilities (Continued)****g. Information on provisions****1. Provisions for employee benefits**

In accordance with Turkish Labor Law, the reserve for employment termination benefits is calculated as the present value of the probable future obligation in case of the retirement of employees. TAS 19 necessitates actuarial validation methods to calculate the liabilities of enterprises.

In accordance with the revised TAS 19 Standard, Actuarial losses has recognized under the equity, amount of after deferred tax TL 1,113 as of 30 June 2025 (30 June 2024: TL 8,229 Actuarial Loss).

The following actuarial assumptions were used in the calculation of total liabilities.

	30 June 2025	31 December 2024
Discount Rate(%)	2.81	2.81
Ratio Used for Probability of Pension (%)	86.67	86.67

The principal actuarial assumption is that the maximum liability will increase in line with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the effects of future inflation.

As of 30 June 2025, The Bank has provision for employee benefits amount of TL 32,012 (31 December 2024: TL 31,202) provision of unused vacation amount of TL 16,020 (31 December 2024: TL 14,421).

Message from the Chairman

Dear Stakeholders,

The second quarter of 2025 continued to be shaped by the global economic outlook, geopolitical tensions, and uncertainties surrounding trade policies. The United States decision to raise tariffs on certain countries, particularly China, and the increasing geopolitical risks in the Middle East have led to fluctuations in global trade flows and heightened market volatility. While these developments prompted investors to seek safe havens and put pressure on global growth expectations, investments in strategic areas such as artificial intelligence and green transformation stood out as promising developments supporting long-term growth potential. We believe this transformation will shape not only global economies but also the future of financial systems.

Despite these global challenges, the Turkish economy maintained its resilient stance in the second quarter of 2025. The tight monetary policy pursued by the Central Bank of the Republic of Türkiye and fiscal discipline contributed significantly to the establishment of price stability and macroeconomic balances. Following price increases in April, the observed slowdown in inflation and the rebalancing of domestic demand indicated a healthy growth process. Policies focusing on digitalisation and sustainability continued to strengthen Türkiye's investment climate. In alignment with this vision, Alternatif Bank sustained its steady progress in the second quarter, supported by the long-term commitment of Commercial Bank. The Bank's performance, driven by its strong capital base, effective risk management, and customer-centric approach, is a clear reflection of its resolute advancement towards strategic goals. Innovative solutions in digital banking, concrete steps in sustainability, and investments aimed at enhancing customer experience played a key role in the Bank's financial results.

The transformation programme, successfully implemented in recent years, continued in the second quarter of 2025 in the form of an initiative deeply embedded into the organisational culture, further strengthening Alternatif Bank's competitive position in the sector. We are confident that the Bank will continue contributing to the national economy and creating sustainable value for all its stakeholders in the upcoming period.

On this occasion, I would like to once again underline, on behalf of Commercial Bank, our confidence in and strong support for Alternatif Bank's strategic journey. I sincerely congratulate the Bank's senior management and all employees on the successful completion of the second quarter and thank them for their dedicated and determined efforts.

Yours faithfully,

Omar Hussain Alfardan
Chairman of the Board

I. Interim Period Activity Report Consisting Bank Chairman and CEO's Evaluation in Reference to Interim Period Activities (Continued)

Message from the CEO

Dear Stakeholders,

The first half of 2025 has been marked by a renewed search for direction in the global economy. The recent steps taken by the United States in its foreign trade policies particularly the introduction of new tariffs have begun to reshape global trade dynamics. While the implementation of certain measures has been deferred to the second half of the year, the gradual enforcement of additional tariffs has led to a volatile risk perception in global markets. Amid heightened uncertainties surrounding the U.S. economy, the U.S. dollar experienced a significant depreciation. Meanwhile, escalating developments in the Middle East have once again brought geopolitical risks to the forefront of the global agenda. Iran's increased involvement in the conflict and the U.S. military's retaliatory actions have further intensified tensions in the region, indicating the likelihood of more pronounced geopolitical risks ahead.

Domestically, the second quarter of the year concluded with a more balanced outlook following earlier fluctuations. After a period of elevated inflation in April, a gradual slowdown was observed starting in May. The more cautious and measured stance adopted by the Central Bank of the Republic of Turkey has revived expectations for interest rate cuts. While the Turkish economy recorded a 2% growth in the first quarter, signs of weakening in production and a decline in real sector confidence indices became apparent in the second quarter.

As of the end of Q2 2025, our consolidated financial results reveal that our total assets grew by 26% compared to the beginning of the year, reaching TL 110 billion. We successfully maintained high asset quality and executed effective balance sheet management during this period. Our support to the national economy through cash and non-cash loans, including financial leasing receivables, rose to TL 105 billion. The Bank's shareholders' equity reached TL 8.5 billion, while our capital adequacy ratio stood at 20.20%. Thanks to our strong performance in the first half of 2025, our consolidated net profit reached TL 1.067 billion.

In the first half of 2025, we also experienced organizational changes designed to support our growth and development. Mr. Tolga Macit Gürsar was appointed as the General Manager of our subsidiary, Alternatif Menkul, one of Turkey's leading brokerage firms, renowned for delivering value to both individual and institutional investors with innovative products and services. Mr. Gürsar is a seasoned professional in the finance and banking sector, and we believe his extensive expertise in capital markets and leadership experience will significantly contribute to our group's growth objectives.

We perceive digitalization not merely as a technological investment, but as a cultural transformation that directly touches the lives of our customers. In line with this vision, we launched a new mobile interface in the past quarter that enhances speed, simplicity, and accessibility in mutual fund transactions. Designed to appeal to investors of all financial literacy levels, this next-generation interface delivers a more streamlined and empowering experience taking our customer experience to the next level. With this innovation reflecting our digital transformation vision, we have made a notable impact in the investment landscape.

At Alternatif Bank, Accessible Banking an approach closely associated with our brand continues to grow in importance within the Turkish banking sector. We see it not only as a strategic pillar supporting excellence in employee and customer experience but also as an integral part of our brand identity. We place particular importance on ensuring that all our initiatives in this field contribute to financial inclusion. Our efforts in digital accessibility aim to provide equal access to banking services for everyone, setting us apart in the industry. According to accessibility measurements conducted by Blindlook, our Mobile Banking App achieved a score of 85, making it one of the most accessible applications in the banking sector. This success, which reflects our inclusive banking vision, is a strong indicator of the steps we are taking to make digital banking equal and accessible for all. Guided by our ambition to build a more inclusive future, we will continue to develop projects that enhance digital inclusion.

I. Interim Period Activity Report Consisting Bank Chairman and CEO's Evaluation in Reference to Interim Period Activities (Continued)**Message from the CEO (Continued)**

Today, global challenges such as the climate crisis, social justice, and resource efficiency have transformed sustainability from a voluntary commitment into a strategic necessity. In this context, we approach sustainability with a holistic perspective that encompasses environmental, social, and governance (ESG) dimensions, and we prioritize its integration into all our business processes. This year, alongside our Q2 financial results, we published our first Sustainability Report, outlining our 2024 activities. More than just a regulatory requirement, this report represents a strategic initiative that allows us to assess our environmental and social impact in a more comprehensive and transparent manner. It provides our stakeholders with insight into the concrete steps we have taken in areas such as sustainable finance, climate risk management, and our environmental and social responsibilities. Moving forward, we will continue to place our sustainability vision at the heart of our business model, pursuing our long-term value creation goals with determination.

Behind all these achievements lies the strength of our robust capital structure, our effective corporate governance, the trust and support of our shareholder Commercial Bank, and the dedication and expertise of our talented colleagues. At Alternatif Bank, we are committed not only to financial success but also to a broader perspective that spans sustainability, digital transformation, inclusive growth, and social contribution. In the coming period, we will continue to move forward with a responsible and visionary approach, focused on creating long-term value for our customers, stakeholders, and our country. I would like to extend my heartfelt thanks to our shareholder for their continued support, to our Board of Directors for their guidance, to our customers for their trust, and to all our stakeholders with whom we contribute to Turkey's economic development.

Sincerely,

Ozan Kırmızı,
CEO
